JR. ENGINEER

DAGA SAPPHIRE & INFRA. PVT LTD. Amravati (06/2016 – 06/2018)

- Collaborated with contractors and external agencies to site visits and cross verification of measurements to ensure accuracy and minimum variance up to **5%-6%**.
- Successfully monitored and executed high-rise residential project by achieving quality up to **95%** as per ISO standards.

EDUCATION

Bachelor of Engineering

P. R. Patil College of Engineering & Tech. Amravati.

08/2012 - 06/2016

SGPA - 7.50

EXTRA CURRICULAR ACTIVITIES

PWC Virtual Experience Program Participant 09/2022-10/2022

Successfully participated in the open access PWC Virtual Experience Program with Forage. During program, following analysis has done successfully...

- ❖ Call Centre Trends Analysis.
- ❖ Customer Retention and Churn Analysis.

FUNCTIONAL AREAS

- ❖ Data Analyst
- ❖ Data Modelling
- ❖ Data Visualization
- ❖ Database Management

TECHNICAL SKILLS

- ❖ Microsoft Power BI
- ❖ Power BI Service
- ❖ Power Automate
- ❖ Azure Data Factory
- ❖ DAX
- ❖ SQL
- ❖ MS Excel

PERSONAL PROJECTS

GLOBAL LAYOFF ANALYSIS REPORT

- Built a user-friendly and dynamic interactive dashboard to visually represent global layoffs data caused by COVID-19 pandemic.
- Leveraged advanced Power BI features such as data modeling and custom visuals to develop compelling data visualizations.
- Provided valuable insights into the global job market, including affected industries and regions, enabling policymakers to identify areas for intervention and support.

COVID-19 GLOBAL PANDEMIC ANALYSIS

- Developed an insightful Covid-19 report in Power BI using data analysis, visualization, and reporting skills.
- Analyzed, visualized, and reported complex data from multiple sources in a clear, intuitive, and actionable format.
- This report can enabled clients to gain a deep understanding of the pandemic's impact on different regions and countries that helped to identify emerging trends and hotspots to make evidence-based decisions.

GENDER DIVERSITY AND INCLUSION ANALYSIS

- Designed Power BI dashboard to analyze workplace gender diversity and inclusion for year 2020
- Utilized Power BI's data modeling capabilities to integrate data from various sources and generate meaningful insights.
- This analysis can improve business outcomes for clients and can enhance their reputation as a socially responsible employer.

KEY PERFORMANCE ANALYSIS FOR CALL CENTRE

- Led Call Centre performance analysis with Power BI, pinpointing call volume and resolution bottlenecks, boosting operational efficiency and quality service standards adherence.
- Designed and implemented data-driven solutions to improve customer service experience, reducing call wait time and enhancing first call resolution rate, resulting in improved customer satisfaction scores.
