EDUCATION

School Name:
S.T.S. Mutha Kanya Prashala (Chinchwad), Pune-411033.
SSC:77.60%

College Name:
Fattechand College, (Chinchwad), Pune-411033.
HSC:55.38%

College Name:
International Institute of Information Technology, Hinjewadi, Pune-411057.
BE (Computer Engineering): 8.77(CGPA)

LANGUAGE:

English
Hindi
Marathi
Sanskrit

SKILLS:

Programming:

C++, SQL, Python, HTML,
JAVA, Tableau, CSS

Concepts:

OOPs, Mongo dB, AI,
Database Management
Artificial Intelligence
Machine Learning
Cloud Computing (GCP AWS)

Tools Used:

Postman, Jenkins, Gitlab,
JMeter, Grafana, Tableau

Business Skills:

Quick Learner, Presentable,
Leadership, Communication,
and Creativity.

Operating System:

Windows, Linux

CERTIFICATIONS:

- Python Certificate
- Mongo dB Certificate
- RDBMS PostgreSQL Training Certificate
- Certified Data Scientist (Pursuing)

INTERESTS:

- Learning New things,
- Reading,
- Cooking, etc.

CAREER OBJECTIVES:

Quest to work and learn in a real professional and vying ambience that enables me to cope with the emerging as well as latest technology and scope for widening the spectrum of my knowledge.

PROFESSIONAL EXPERIENCE:

1] DEVOPS ENGINEER (ASSISTANT MANAGER)
(16th Aug, 2022 - Present)

Company Name: HDFC Securities, Mumbai-400042.

Objective:

Skilled DevOps Engineer with 1 year of experience in collaborating with development and operations teams to streamline software delivery and infrastructure management processes. Adept at implementing automation strategies, maintaining CI/CD pipelines, managing cloud-based infrastructure, and resolving issues. Seeking a challenging position to utilize my technical expertise and contribute to the success of an organization.

Roles and Responsibilities:

- Collaborated with development and operations teams to identify and implement automation opportunities, resulting in streamlined software delivery and infrastructure management processes.
- Participated in the development and maintenance of CI/CD pipelines, ensuring efficient software delivery and deployment.
- Managed and monitored cloud-based infrastructure, including servers, databases, and networking components, to ensure optimal performance and availability.
- Developed and implemented monitoring and alerting strategies to proactively identify and resolve issues, minimizing downtime and improving system reliability.
- Troubleshoot and resolved issues related to software delivery and infrastructure management, utilizing troubleshooting techniques and fixing code bugs.
- Collaborated with security teams to ensure compliance with security policies and industry best practices, enhancing system security and resilience.
- Developed and maintained documentation for infrastructure and deployment processes, ensuring accurate and up-to-date information for the team.
- Set up tools and required infrastructure, leveraging technical skills to configure and optimize systems for efficient operation.

- Defined and established development, test, release, update, and support processes, ensuring smooth DevOps operations.
- Reviewed, verified, and validated software code developed in the project, ensuring code quality and adherence to coding standards.
- Encouraged and implemented automated processes wherever possible, improving efficiency and minimizing manual errors.
- Conducted incidence management and root cause analysis, identifying the underlying causes of issues and implementing preventive measures.
- Coordinated and communicated effectively within the team and with customers, ensuring smooth collaboration and project success.
- Selected and deployed appropriate CI/CD tools, integrating them into the development workflow for improved automation and efficiency.
- Strived for continuous improvement by building and optimizing continuous integration, continuous development, and constant deployment pipelines (CI/CD Pipeline).
- Mentored and guided team members, providing technical support, knowledge sharing, and fostering professional growth.
- Monitored and measured customer experience and key performance indicators (KPIs), ensuring high-quality service delivery and customer satisfaction.
- Managed periodic reporting on the progress to the management and the customer, providing updates on project status, milestones, and achievements.
