## SUMMARY

A student pursuing a Bachelor of Technology in Computer Science and Engineering, possessing proficiency in data science, machine learning, and Python, possesses the capability to specialize in various emerging fields. Natural Language Processing (NLP) provides avenues for improving machine-human interaction, while deep learning concentrates on the application of neural networks in image and speech recognition.

## EXPERIENCE

### Python Intern

#### Technex, IIT (BHU) Varanasi

📅 2021 - 2021 📍 Virtual

- The Technex internship proved to be an exceptional experience, as it provided me with invaluable insights into the intricacies of Python programming, and enabled me to successfully execute a project.
- The Python programming language was utilized to develop an artificial intelligence (AI) voice assistant.
- I had the opportunity to work on a project, which involved developing a Voice Assistant using Python.

## EDUCATION

### Bachelor's of technology

#### Chaudhary Charan Singh University, Meerut

📅 2020 - Present

CGPA

8 / 9.8

### Intermediate

#### SAC, Prayagraj

📅 2018 - 2019

Percentage

78 / 100

### High School

#### SAC, Prayagraj

📅 2016 - 2017

Percentage

84 / 100

## TECH STACK

Python Machine learning C

Statistics Deep learning NLP

Data Analytics Data Visualisation

HTML CSS

## TRAINING / COURSES

### Data Science Master Course

### J.P. Morgan Software Engineering Virtual Experience on Forage

### Goldman Sachs Software Engineering Virtual Experience Program

### JPMorgan Chase & Co. Agile Job Simulation

### Cisco Intro to Software Engineering Virtual Experience Program

### Tata data visualization program

### Accenture Nordics Developer

## PROJECTS

### AI Voice Assistant

📅 2023 📍 Meerut

Implemented an AI voice assistant using Python programming language.

- I have recently concluded a project which entailed the development and execution of an artificial intelligence voice assistant utilizing the Python programming language.
